## •Introduction

•For over 22 years I have been designing custom spaces that are energizing, uplifting, and welcoming. Throughout the years I have discovered a passion for bringing positive change to the lives of others by transforming their surroundings to suit their intentions. My philosophy is that a comfortable, welcoming space encourages relaxation and productivity, as well as a sense of community. I consult with clients on every detail of their space: from the look of the exterior and landscapes, to every detail of the interior decor and spatial layout.

## •Highlights

- For 15 years I designed and built custom spec. homes.
- I studied Fine Arts at the University of Missouri, eventually becoming a nationally Certified Expressive Arts Therapist. I have been teaching and serving the community through art, developing several integrative art programs for children and adults in both private school and the healthcare arenas.
- In 2004, I served as Arts Commissioner for the City of Encinitas.
- In 2005 I founded the Open Door Wellness Center and Art Gallery. I designed and remodeled an empty building, turning it into a large community wellness center.

## •Professional Experiences

### **Freelance Interior Designer**

- As of 2012 I have been working as an independent interior designer. I can provide a portfolio of my design work upon request.

### **Custom Spec. Homes**

- From 1995 to 2010, I was building and designing custom spec. homes, including spatial layout. It was also my responsibility to choose all interior design elements. I was instrumental in creating the landscape design as well.

### **Founder + Facilitator**

- Open Door Wellness and Art Gallery - Encinitas, CA
- ‘Create Your World’ Retreats

### **Art Instructor**
